

Sapphire Radeon X800XT Platinum graphics card
On sale in South Africa at **ComX Computers** <http://www.comx.co.za>

(ATI RADEON™ X800 XT **Platinum Edition** Chipset)

'Xperience **SAPPHIRE** and 'Xperience **True High Definition (HD) Gaming!**

Sixteen 'Xtreme pixel pipelines, and 256MB of 'Xtreme GDDR3 memory operating at a frequency north of 1GHz! Stop playing with toys and step into the 'Xotic world of 'Xcessive features with the **SAPPHIRE RADEON™ X800 XT Platinum Edition!**

Features:

- **256MB** of 'Xtreme performance GDDR3 memory accelerates the latest cutting edge 3D applications
- 256-bit quad-channel GDDR3 memory interface
- Sixteen 'Xtreme parallel pixel pipelines
- **Available in PCI Express format or AGP 8X**, providing a high-speed link between the graphics board and the rest of the PC
- Six programmable vertex shader pipelines
- Full support for DirectX® 9.0 and the latest OpenGL® functionality
- New **SMARTSHADER™ HD** technology allows for support for Microsoft® DirectX® 9.0 programmable vertex and pixel shaders in hardware as well as OpenGL® via extensions.
- **SMOOTHVISION™ HD** technology provides enhanced image quality by removing jagged edges and bringing out fine texture detail, without compromising performance
- **3Dc™** High quality 4:1 Normal Map Compression delivers beautiful scenes without the performance hit.
- Unique **VIDEOSHADER™ HD** engine uses programmable pixel shaders to accelerate video processing and provide better-looking visuals
- **HYPER Z™ HD** is optimized for performance at high display resolutions, including widescreen HDTV resolutions.
- BGA Memory; 256-bit; 500MHz / 500MHz
- ATI
- S-Video, composite and VIVO cables

ADDITIONAL POWER CONNECTION REQUIREMENTS

The RADEON™ X800 XT must be connected to the computer's power supply to meet its performance and high-speed memory requirements.

Available in both **FULL Retail** and **Lite Retail Versions**

Full retail indicates that the package contains the entire bundle including the Game software bundle and utilities. The Lite retail versions do not come bundled with the software bundle and are packaged with the necessities needed to enjoy the pinnacle in performance from Sapphire alone.
