TravelMate 250 Series

Mobile Multimedia Performer

THE COMPACT AND FULLY INTEGRATED TRAVELMATE 250 SERIES IS PARTICULARLY SUITED TO OUTBOUND AND MOBILE BUSINESS TRAVELLERS FROM SMALL AND HOME OFFICES, IN ADDITION TO SMALL, MEDIUM AND LARGE SIZED CORPORATIONS IN NEED OF A POWERFUL AND RELIABLE MULTIMEDIA WORK DEVICE THAT OFFERS BOTH EFFICIENT AND LONG-LASTING MOBILITY TOGETHER WITH THE FAR-REACHING BENEFITS OF FLEXIBLE CONNECTIVITY AT A GREAT PRICE.

The evolution of outbound work requires...

Today's outbound business environment has evolved to such an extent that professionals from a variety of backgrounds ranging from sales people and service staff to freelance consultants require nothing less than a high performance 'work companion' that provides a fully equipped set of multimedia features and more than enough power to handle the latest demanding, dynamic and altogether diverse day to day challenges in addition to regular applications like word processing, spreadsheets, calendars, mail and web browsing.

Dynamic performance

The TravelMate 250 offers exactly what you need when you need it. Full mobile computing power, complete connectivity and multimedia features in a sturdy, compact unit, allowing exceptional flexibility and mobile performance to keep efficiency high and TCO to a minimum.

Comprehensive Multimedia features

The compact chassis of the TravelMate 250 features a surprising amount of advanced multimedia features. Equipped with a brilliant 14.1" or 15" TFT display, stereo speakers, and either DVD-RW or DVD/CD-RW combo drive, the TravelMate 250 provides a seamless integrated solution for audio, video or data applications, allowing users to analyse business data efficiently, regardless of complexity, or prepare and present content-rich multimedia presentations in no time at all.

The TravelMate 250 series features on selected models an integrated FDD for all professionals and companies in need of a comprehensive All-in-One unit supporting simultaneous use of FDD, HDD and optical drive. Additionally the systems provide a large number of I/O ports: parallel, 4x USB 2.0, infrared (FIR), audio, modem and two Type II PCMCIA CardBus slots. These features, together with the independence and mobility supported by the powerful Lithium-Ion battery qualify the TravelMate 250 for all mobile business travellers or service professionals as ideal companion.

Power and Independence

Powered with an Intel® Pentium® 4 Processor and complete with ample memory headroom and a range of professional operating systems, the TravelMate 250 is more than ready to multi-task between demanding business applications, whether large worksheets, resource-demanding mainframe / client front end applications, host emulations, multimedia applications, ensuring flexibility, high work efficiency, quick results while eliminating the risk of unwelcome stoppages and long loading or waiting times.

Active Communication and Connectivity

On the move, the TravelMate 250's V.92 56Kbit/sec fax modem provides dial up connection to your business data, email and the internet, keeping you up to date and in control of your business world.

In the office and at home, the integrated flexible 10-Base-T / 100-Base-TX network card gives immediate access to the local area network, assuring super fast access to your data, applications and services for outstanding work efficiency, rapid turnaround, and winning results. It also allows for super fast ADSL connections to web-based infrastructure and services, offering the unlimited resources of the internet with close to zero response times.

For convenient wireless communication in the office, or increasing numbers of public areas like airports or hotels, selected TravelMate 250 models also feature an integrated 802.11b WiFi wireless LAN card with a speed of 11Mbit/sec.
