

POE Smart PowerBank

Applicable for Wireless bridge/Router/AP/Camera/Cellphone etc.

Specification

Size : 135*100*43mm

Weight : 0.6kg

Battery capacity : Li-Ion 7500mAh 12.6V/94.5Wh

Working temperature : -10°C to 60°C

Input :

Input voltage : 12.6V

Input electric current : 2A

Charging period : 4h

Output :

USB : 5V/3A

DC : 12V/2A

POE : 24V/1A

POE : 48V/0.5A Gigabit

Product features

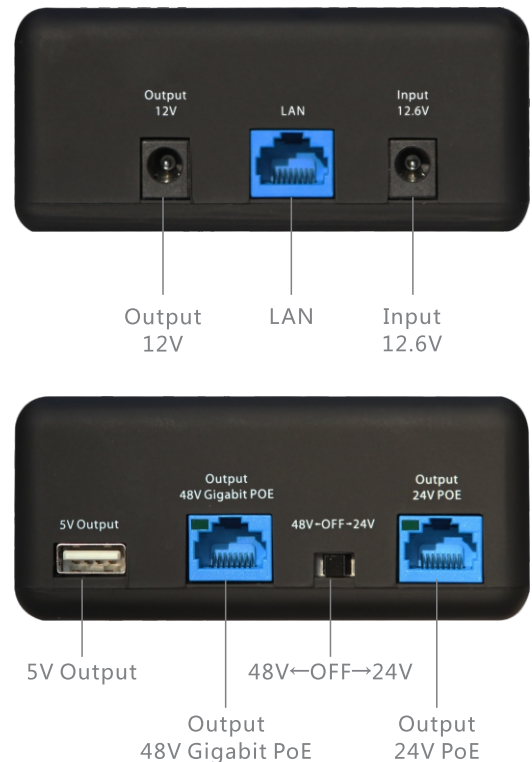

Battery life: In the conditions of full power consumption of 10W, battery life is larger than 12 hours.

Battery status display: Constantly power monitoring which is showing clearly .

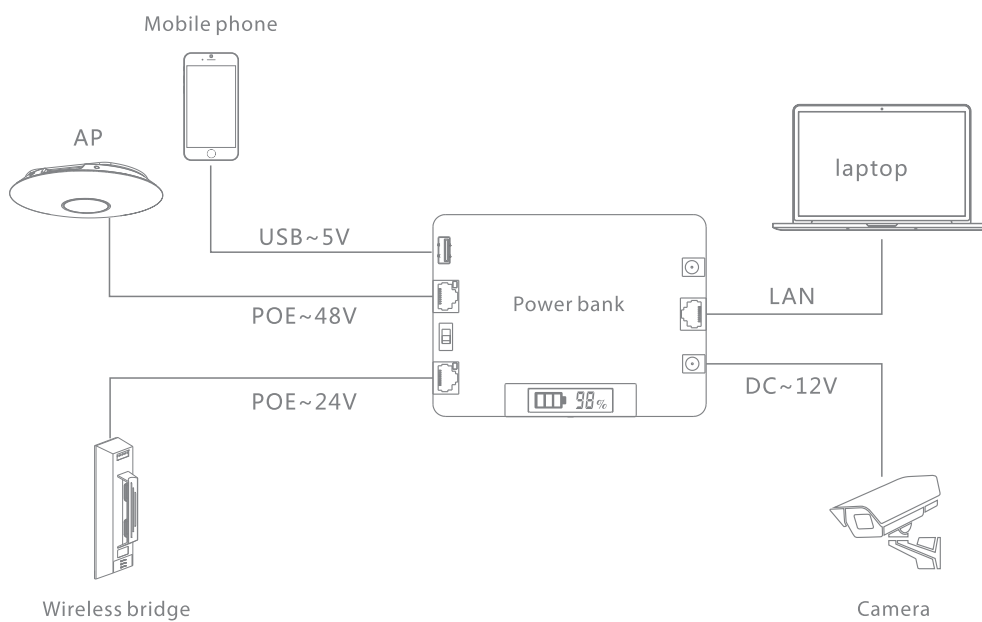

Interface output: USB/DC/POE can output simultaneously.

Strong compatibility: Support Cellphone, laptop, camera, wireless bridge, AP, Router etc.

Safety design: Overcharge, over current and short-circuit protection.
