Rugged Mini

MOBILE DRIVE

Data Sheet

Rugged Design. Mini Size.

- Shock, rain, and pressure resistant
- Password protection
- USB 3.0: up to 4x faster than USB 2.0

design by neil poulton

Product Overview

The LaCie Rugged Mini drive shares features with our popular Rugged mobile hard drive, like shock resistance, drop resistance, and a rubber sleeve for added protection. But the Rugged Mini is also rain and pressure resistant, meaning you can drive over it with a 1-ton car, and it still works[1]. With the Rugged Mini, LaCie has reduced the size and added tons of new features, making it perfect for on-the-go data transport.

Use Cases

- Students: Store music, video, and confidential school documents on a secure device that fits in a backpack.
- Travelers: Protect valuable data from loss, theft, or accident while on the road.
- Photographers: Small form factor and toughness make this product perfect for use in the field or to safely deliver large files to customers and partners,and encryption[2] adds an extra layer of protection against unauthorized access.
- Videographers: Perfect for shuttling dailies or other footage to the studio and transfering files quickly thanks to USB 3.0.

1 Determined by a test that approximates a real-world scenario in which the hard drive remained functional, despite aesthetic damage, after the product was driven over by an approximately 1-ton car (1000 kg / 2205 lbs).

2 Encryption software is only available via download and is not available in Russia.
